Stairs with Italian design and German quality craftsmanship for clients around the world

GLASS FAN

AT THE LIMIT

The glass fan spanns over 13meter and is beeing used for video prejection installations and to get to the upper floor. Top and bottom of the stair is finished with glass treads and risers. To minimize the visual impact of the structural members, structural glass stringers habe been used to support the staircase.

Based on the design by BIG architects (Byarke and Ingles Group) Siller has created this all glass staircase as central point of the Kistefos Museum.

KISTEFOS MUSEUM

"We do what we love and we love to build extraordinary staircases" Siller is a family run business since 1958

MISTRAL BRONZE

LIMITLESS SOLUTIONS

Most hardware has been laminted in between the glass layers. It makes the cleaning easier and gives it a more transparent look..

Give it some color. The bronze tinted glass gives the design more exclusivity. The in-line attachments have been created for this project in San Francisco specificly.

MISTRAL CHICAGO

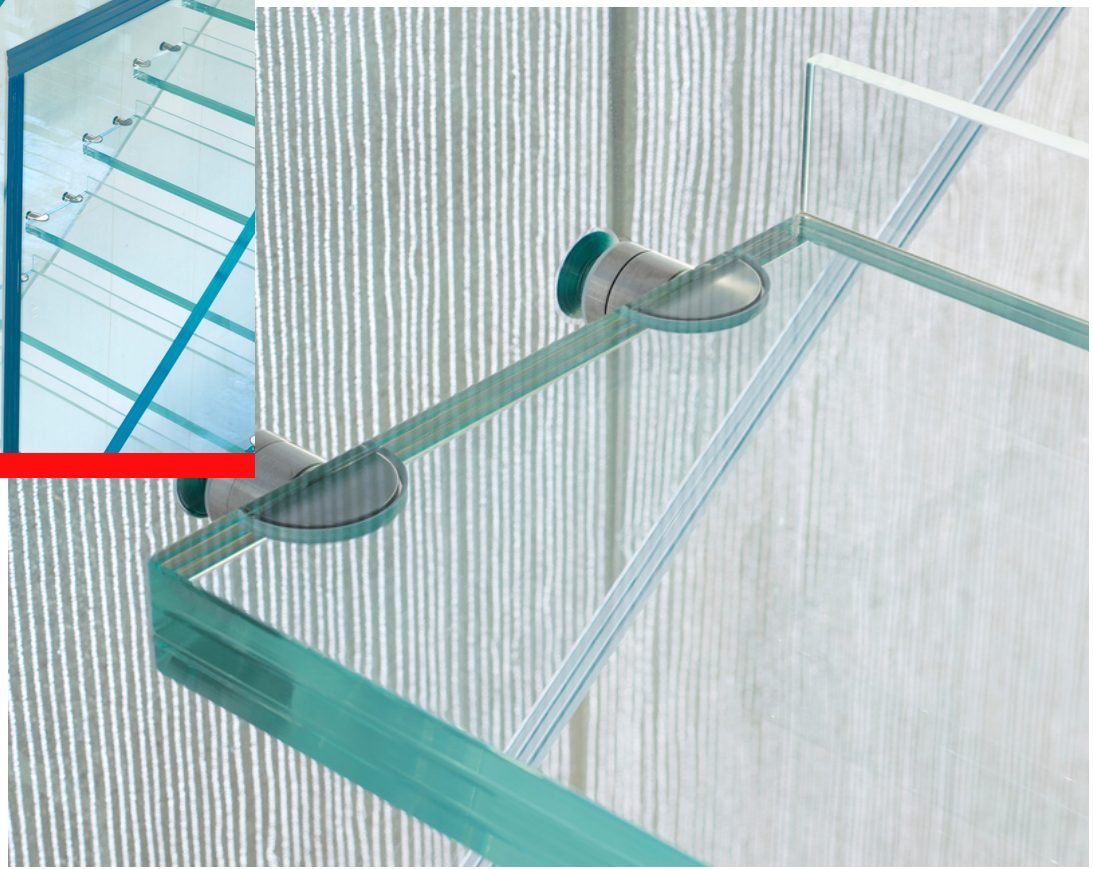

LIMITLESS SOLUTIONS

Seamless glass stringers are stunning and make an extraordinary design even more special. Pure minimalism!

And now anchor details are getting even smaller! Check out those small point attachments. Innovation paired with design.

MISTRAL CHICAGO

MISTRAL BLACK

THE WORLD OF GLASS

To minimize the visible hardware and make the design as clean and straight forward as possible is one of the trademarks of SILLER

SEAMLESS glass stringers in low iron glass provide a sense of exclusivity. The black glass treads give it a big contrast which makes the stair to be an eye cather.

MISTRAL BLACK

Stairs connect living spaces ... in a traditional wooden house just as much as in a prestigious Villa or office building.

FLY

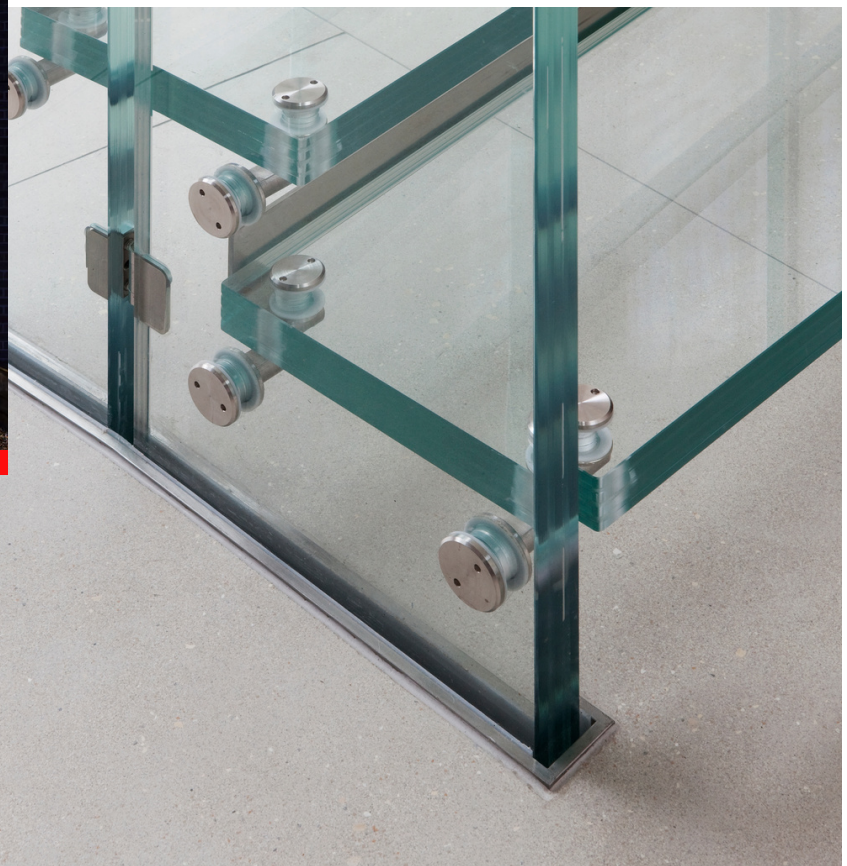

GENTLY FLY UPWARDS

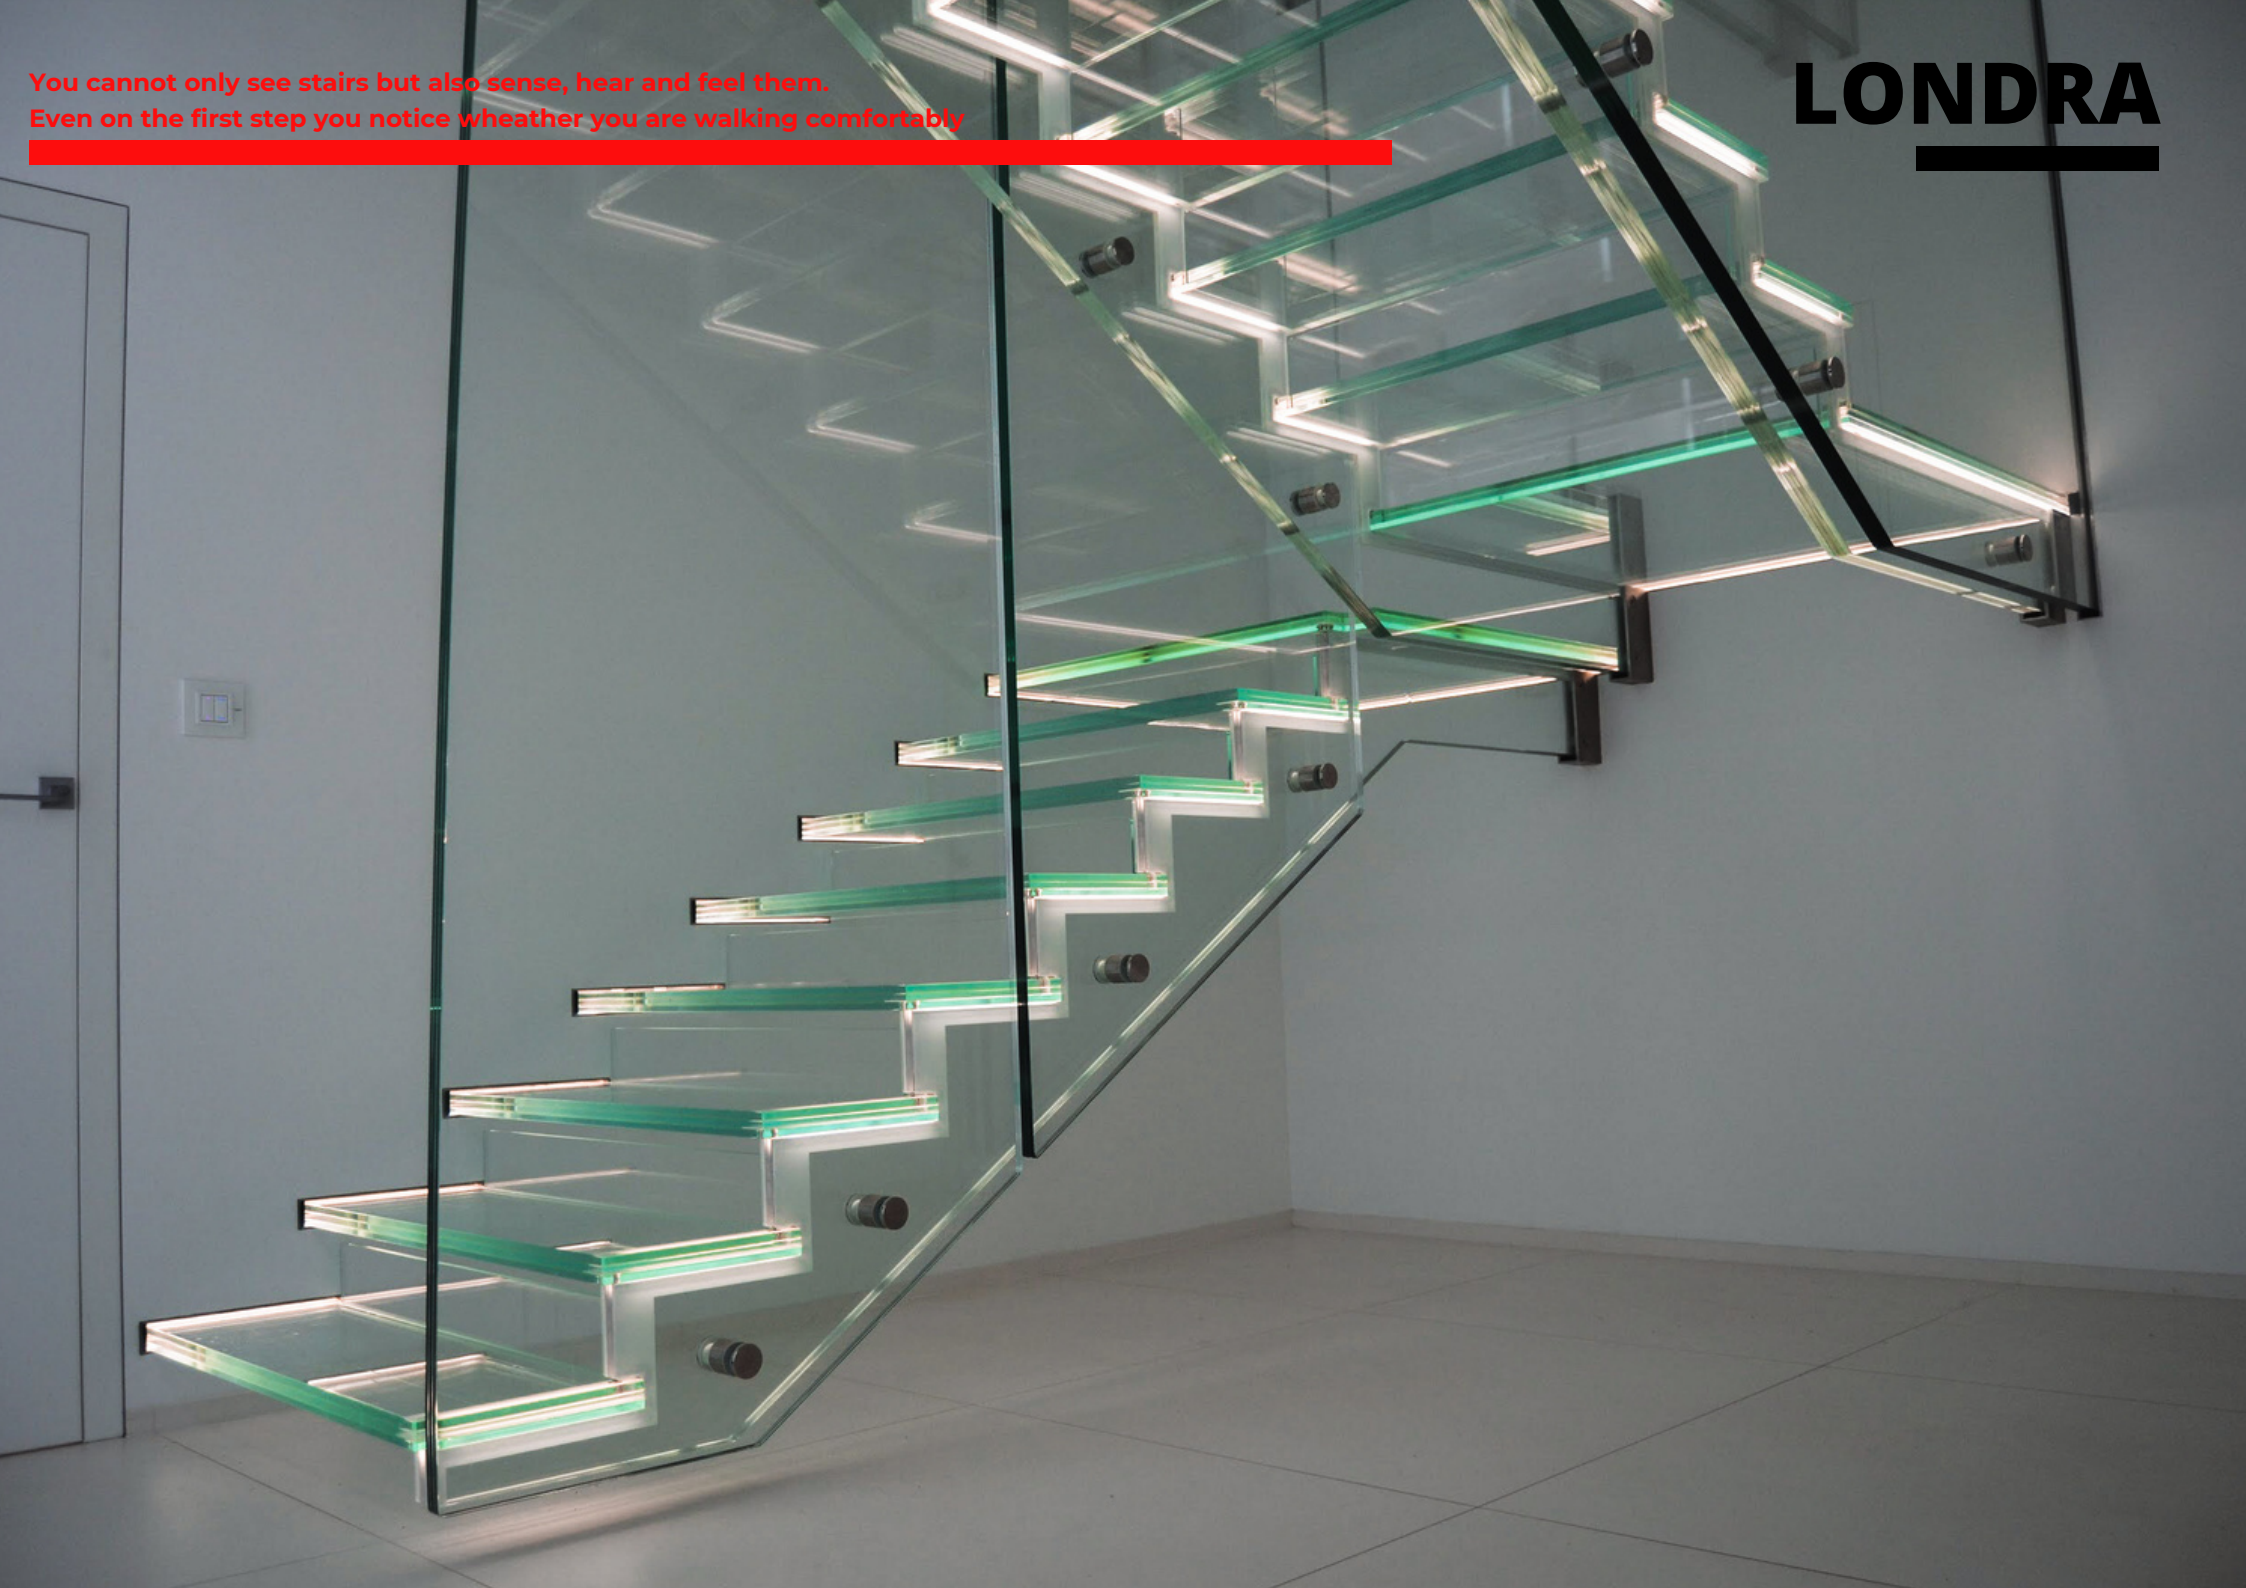

Get the most of it!
The most transparency
The most WOW
The most of design

Helical glass stair design with in-house developed FLY connectors. For unique shapes and interesting views.

FLY ORIGINAL

You cannot only see stairs but also sense, hear and feel them.
Even on the first step you notice wheather you are walking comfortably
LONDRA

IS THAT POSSIBLE?

Innovative ideas and manufacturing tecniques drive us to get the most out of the materials we use to build stairs

This all glass staircase has illuminated glass treads and the electrical wires are hidden within the glass itself.

LONDRA DESIGN

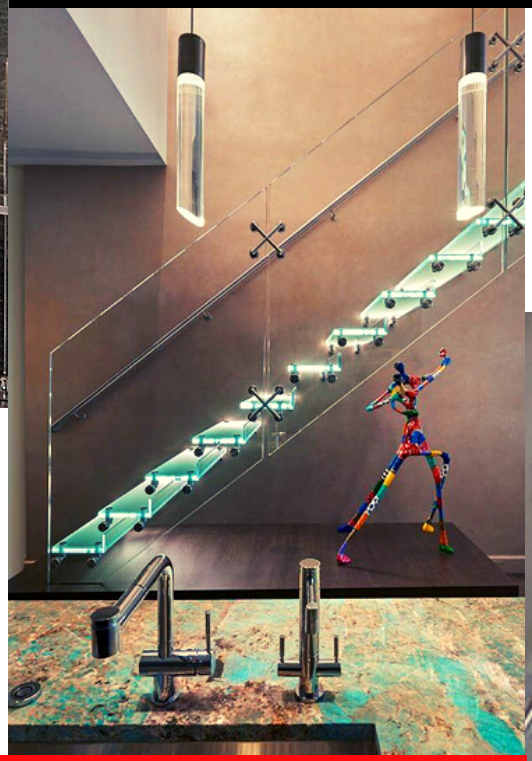

Does the stair creak softly under your feet? Does the handrail feel comfortable and warm? Only quality transforms a staircase into a pleasant experiance.

GLASS AND LED

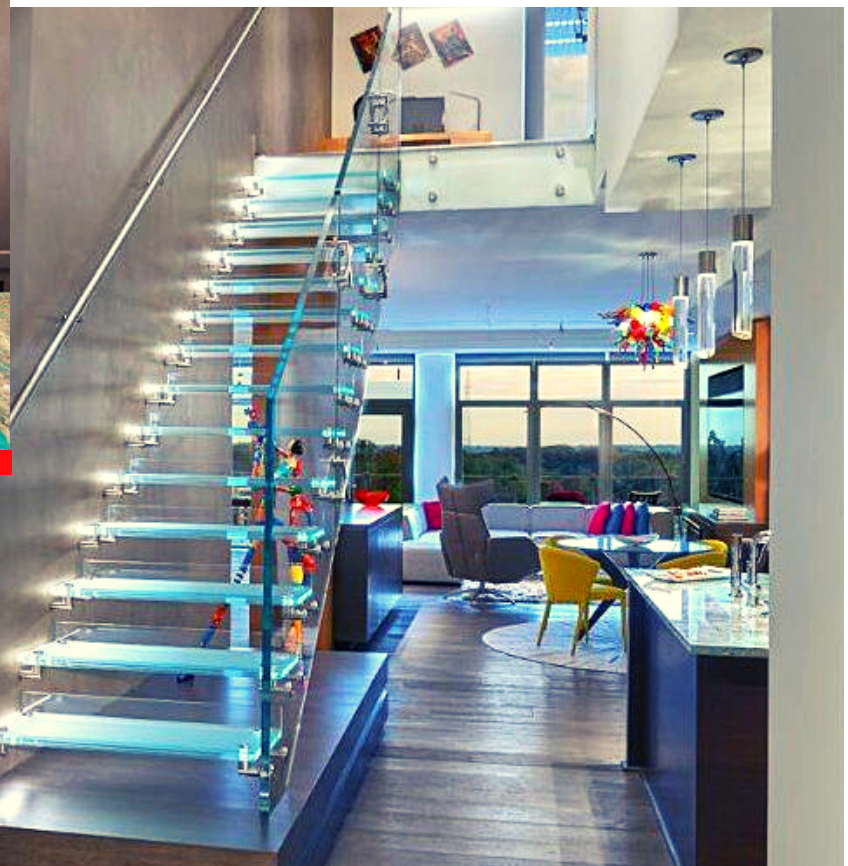

THE GLIMMER OF LED

All glass stairs with LED lighted treads
A Siller original

Give your living room a cozy atmosphere by regulating the light of the treads
RGB or warm white LED.

FLY ORIGINAL

Latest technology and creative thinking helps us to create amazing designs and transform stairs into a piece of art.

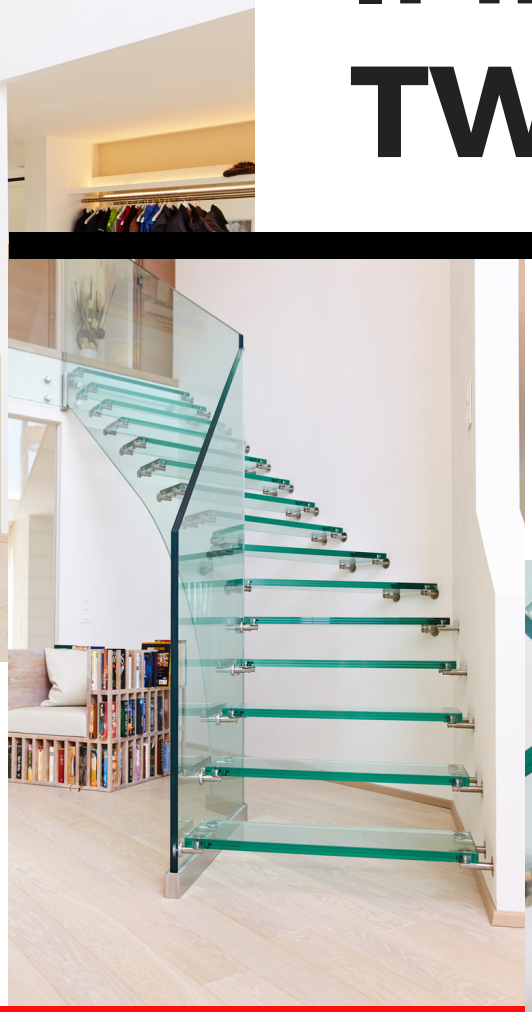

THE TWIN

IMPRESS TWICE

The classic all glass stair becomes a new feature by mirroring it to the other side.

With standard float glass or low iron, this one is an eye-catcher for sure

FLY ORIGINAL

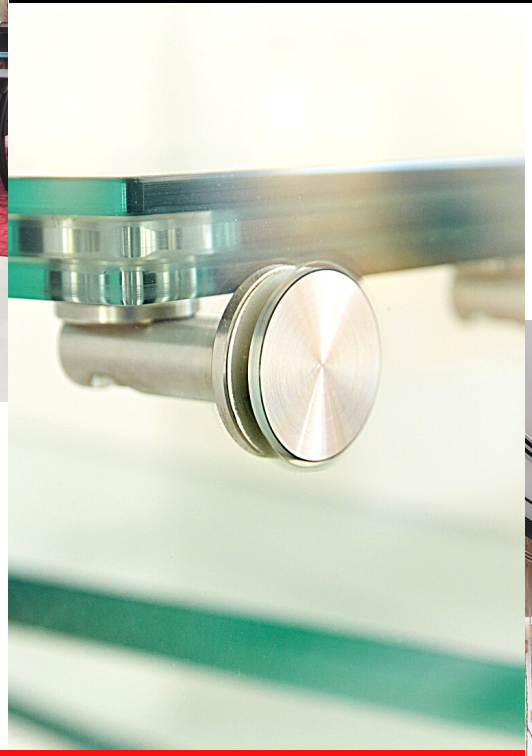

STAND ALONE

SILLER is a stair builder with love for attention to detail
Wheather wood, steel or glass, we get the best out of it

AND ANOTHER!

Travelling with us through the world of glass stairs and experiance them in any way.

Free standing feature stairs in all glass charm its environment.
Luxury at the highest level.

FLY ORIGINAL

Stairs with Italian design and German quality craftsmenship - this is SILLER Stairs - serving clients around the world

SKY SCREW

SPIRAL AND CANTILEVERED

With cantilevered treads suspended from the wall and an iron forged railing with bronze finish this is a unique piece of art

The spiral SKY-SCREW design rotates you up in the air.

FLY ORIGINAL

Gently floating upwards...
Building glass stairs is a challange for fabricators and designers, but one we like.

LONDRA MAGIC

SO WHAT?

Treads suspended from the wall with no visible anchors have their special appealing. Adding LED makes it stand out.

The LONDRA design can be adjusted to the most unique situations and provide some magic to your home..
